- (ii) **Relative Approach** is a statistical comparison method which will be applied when there are more than five nos. of substantially responsive bids. - ii) The additional performance security shall be treated as part of the original performance security and shall be valid for a period coextensive with the applicable defect liability period of the contract.

- iii) Non submission of the additional performance security shall constitute sufficient ground to rejection of the bid and similar assessment shall be initiated for the next ranked bidder identified as ALB.
