

CORRIGENDUM-I

NIT NO. AEGCL/DGM/TTC/TEZ/T-20/2025/267 Date: 13.01.2025

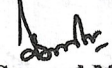

Name of work: Supply of parallel Groove Clamp suitable for ACSR Panther to Panther Conductor for Double Jumpering work of 132KV Depota-Sonabil and 132KV Sonabil-Ghoramari-Depota Transmission line including F&I at 132/33kV Depota GSS.

- (1) This is for general information that the point no. 9 of Clause no. 27.4 mentioning the standards for "PG Clamp suitable for ACSR Panther to Panther Conductor" against the above mentioned NIT for the said bid is mistyped. The same may be read as "The PG Clamp bodies should be made of Extruded Aluminum Alloy and shall be gravity die casting process only".
- (2) Moreover, the Sl no. 3 against the Guaranteed Technical Particular (GTP) for the said bid is amended as "Standard to which the P.G. Clamps for Panther Conductor will conform (Clamp bodies are made of Extruded Aluminum Alloy)".

The mistake may kindly be ignored.

All other terms and conditions shall remain the same.

Yours faithfully,

Deputy General Manager
Tezpur T&T Circle, AEGCL,
Tezpur

Memo No. AEGCL/DGM/TTC/TEZ/T-20/2025/ 181-85

Date- 21.01.2025
